Hokkaido University was founded in 1876 as Sapporo Agricultural College, the first higher educational institution for agricultural sciences in Japan. The university consists of twelve undergraduate faculties, twenty-two graduate schools, and twenty-two research institutes and centers, with 4,000 faculty members, and administrative and technical members, 11,500 undergraduate students, 6,600 graduate students as well as 2,100 international students from 100 countries (all approximate numbers for personnel and students).

Of all the Faculties and Graduate Schools, the School of Agriculture is the oldest in the university's history of more than 140 years. It was first established to meet the needs to open the island of Hokkaido as a new frontier. Since then, it has been the leading university in agricultural sciences and has produced many eminent persons.

Today, the School of Agriculture at Hokkaido University is one of the most prestigious Agricultural Faculties among the National University Corporations* in Japan, attracting more than 70% of its students from areas other than Hokkaido. The same applies to the Graduate School of Agriculture that is staffed with highly qualified professors and staffs. In 2000, it has transformed itself into a “Graduate Research University” that places greater emphasis than ever upon graduate education and research activities, and that aims to maintain the highest standards as one of the top universities in Japan in the twenty-first century.

The Global Education Program for AgriScience Frontiers started in April 2018 as an evolved form of the previous Special Postgraduate Program in Biosphere Sustainability Science. This program provides a unique combination of such study fields as food, health and environment to meet urgent needs in research and development of preservation and sustainable utilization of our limited resources on earth to ensure our quality of life in the future. Due to the nature of the program, the language to be used in all educational and research activities will be English. We invite you to take advantages of this opportunity.

北海道大学は1876年に札幌農学校として創立された日本で最初の高等農業科学教育研究施設である。
本学は12の学部・22の大学院研究科（院）・22の研究所および研究センターなどからなり、4,000名の教職員・11,500名の学部学生及び6,600名の大学院学生から成り立ち、その中には99ヶ国・2,100名の外国人留学生が含まれている。（人数は概数）
北海道大学の全ての学部・研究科において、農学部は140年以上の長い歴史を持つ最古の学部であり、北海道の開拓という目的の為に創設されて以来、農学分野では常に先端を歩む大学であり多くの著名人を輩出した。
今日、北海道大学農学部は日本の国立大学法人*の中でも最も権威のある学部の1つであり、入学者のうち北海道以外の出身者が7割以上を占めている。大学院農学研究院もまた同様であり、併せて質の高い教授及び職員が在籍している。西暦2000年には大学院教育に重点を置いた「大学院重点化大学」へと移行し、21世紀に於いて日本の最も優秀な大学の1つとして、最高のレベルを維持しようとしている。
「包括的先進農業フロンティア育成のための国際教育プログラム」（以下、先進農学フロンティア特別コース）は、それまでの「生存基盤科学特別コース」を基盤として新たに、2018年4月に設立された。本プログラムは、地球上の限られた資源の保全と持続的活用によって未来における人類の生存基盤を確立する為に必要な、食物、健康科学、環境に係る教育研究の独創的なプログラムを提供する。
なお、プログラムの性格上、教育・研究に使われる言語は英語であり、我々はこのチャンスをぜひ有効に活用していただきたいと思っている。
